MAX SPEEDING RODS

ABOUT US

Established in 2006, maXpeedingrods has been engaged in the research of overseas racing products and culture. maXpeedingrods has strong capability of independent research & development, industry-leading capacity of quality control and perfect logistics and after-sales service system.

Research Department of maXpeedingrods has been dedicated to the academic research of modified car performance and invested considerable manpower and material resources in continuous improvement of modified car performance indexes. maXpeedingrods has modern laboratory, production and testing equipment and advanced techniques, and mainly researches and develops various performance products such as high-performance modified car's connecting rod, crankshaft, turbocharger, coilover, air suspension, air pump and control arm. maXpeedingrods has more than 4 millions of audience and enjoys relatively high popularity in the global modified car market. Its products cover 60% of the mainstream vehicle performance tuning categories. Currently, maXpeedingrods has accumulatively researched and developed over 5,000 high-performance modified car parts and obtained many technical patents. Lots of research results have been converted into volume production and delivered to global modified car enthusiasts.

maXpeedingrods always uphold the development concept " FOCUS ON PERFORMANCE " to make contributes to domestic and overseas car tuning enthusiasts and the global racing culture by excellent products and service.

01 R&D and production

We have Modern laboratory, production and testing equipment and advanced techniques, With **15** hi-tech performance parts production lines and **861000** ft² factory. We have been awarded the **TÜV NORD ISO9001-2015** Quality Certification.

03 Intellectual property

We attach importance to intellectual property rights and have a professional team of intellectual property rights. So far, we have more than **500** intellectual property rights and more than **30** trademarks.
